PROFESSIONAL SUMMARY

Data Analyst with 1.5+ years of experience focused on **marketing analytics** and **growth analytics**. Skilled in **SQL**, **Python**, and **BigQuery**, with hands-on experience analyzing **customer funnels**, **attribution**, and **revenue data**. Improved **campaign conversion** by 18% and built **data pipelines** and **dashboards** to support **business decision-making**. Strong interest in **product analytics**, **growth analytics**, and **business analytics** roles.

Technical Skills

- **Languages & Query:** **SQL** (CTEs, Joins, Subqueries, Window Functions — RANK, LAG), **Python** (Pandas, NumPy)
- **Analytics & BI Tools:** **Power BI**, **Looker Studio**, Excel (Pivot Tables, Power Query, VLOOKUP)
- **Databases & Cloud:** **BigQuery**, MySQL, Google Cloud Platform (GCP)
- **Data Engineering:** ETL Pipelines, REST APIs, Data Integration, Automation (Apps Script)
- **Analytics Methods:** **Funnel Analysis**, **Cohort Analysis**, Customer Segmentation, **Attribution**, KPI Tracking

Professional Experience

QHT Clinic (Mid-size Healthcare Company, 100+ employees), **New Delhi** — **Data Analyst** May 2025 – Present

- Built **ETL pipeline** ingesting 45,000+ monthly lead records from 4 dialer APIs (Ozonetel, Exotel, TATA Smartflo, Avyukta) into **BigQuery** via Python & Apps Script — eliminated **90% of manual workflows**, enabled hourly reporting replacing 3 hrs of daily Excel work.
- Applied **SQL window functions** (RANK, LAG, ROW_NUMBER) to score 60 agents on efficiency index, connectivity %, and talk time — flagged underperformers same-day; benchmarking framework **adopted across all agents**.
- Conducted **funnel analysis** and customer segmentation across lead sources (WhatsApp, Google Ads, organic) — identified highest-converting channel, driving **18% improvement in campaign conversion rate**.
- Built **multi-channel attribution pipeline** consolidating Google Ads, Meta, and WhatsApp data into BigQuery — revealed YouTube & organic outperforming all paid channels, driving **14% uplift in qualified lead conversions**.
- Engineered **cross-platform pipeline** linking Shopify (orders/revenue) and LeadSquared (leads/consultations) via Python — Looker Studio dashboard tracking **50L+ monthly revenue** exposed highest-value segments and conversion gaps by source.
- Designed **Power BI** and **Looker Studio** dashboards for 60 agents — surfaced real-time KPIs for **40+ stakeholders** including CEO, CBO, and Sales Head; refreshed every 30 min via Google Apps Script.

Policybazaar.com — **Data Analyst (Contract)** Aug 2024 – Apr 2025

- Analysed **200,000+ insurance policy records** using **SQL** and Excel to investigate **renewal drop-offs** across multiple policy segments — identified key friction points in the **customer journey** through **cohort segmentation**, contributing to improved retention strategies
- Built **cohort-based analysis** on **50,000+ customers** to segment users by purchase period and policy type, uncovering **early-life churn patterns** and identifying high-risk customer groups
- Investigated a **12% spike in policy lapse rates** by performing deep-dive **root cause analysis** across agent performance and product categories, isolating the issue to specific segments and recommending targeted corrective actions
- Designed and maintained **SQL-based reporting workflows** to track **policy performance and retention metrics** on a recurring basis, enabling continuous monitoring and supporting data-driven planning by business teams

Career Transition & Upskilling 2018 – 2024

- Pursued government services examinations full-time. Transitioned into Data Analytics in 2024 — upskilled in SQL, Python, BigQuery, and BI tools before joining Policybazaar.

EDUCATION

IIT Madras — **B.Sc. Data Science (Hybrid)** 2025-2028 (Expected)
Kurukshetra University — **B.Tech ECE** 2014 – 2018

CERTIFICATION

Coding Ninjas Data Analyst Job BootCamp Sep 2024-Sep 2025
Google Data Analytics Professional Certificate July 2025 – Dec 2025
